

# CVX-RIPE<sup>®</sup>

Simultaneously provides gentle pressure at the internal and external os, as well as within the cervical canal.

- Conical shaped balloons, designed with no gap in between, form an hourglass shape when placed in the patient.
- Soft, silicone “nose” and catheter body combined with a pliable stylet to balance patient safety with ease of insertion.
- Catheter is packaged with a 20 mL syringe for clinician convenience.
- Clearly labeled Luer-activated inflation ports for easy inflation to proper volumes.
- Not manufactured with Latex, DEHP or BPA
- Catheter tubing is 18 French.
- 5 year shelf life
